THE CONFUSING WORLD OF

# Care Icons

# CARE ICONS / SYMBOLS

Please visit [www.nilorn.co.uk](http://www.nilorn.co.uk) for all available products.

Care symbols aren't always the most straight forward of things, especially when producing garments that are to be sold across multiple territories with multiple languages. So, we have put together this "quick look" guide which may help. This guide shows the standard European (UK) care symbols and the Japanese and American equivalents. Where this isn't a Japanese or American equivalent, the EU symbol has been used.

Please note that these symbols are only a guide and are correct at the point of publication only. It is the responsibility of the client to ensure that they are correct for their garment.

## EU JP US WASHING

**COTTON WASH**  
The number indicates the temperature. No extra lines indicates a normal (maximum) wash setting can be used at the temperature stated.

**SYNTHETICS WASH**  
The number indicates the temperature. Two extra line indicates a reduced (medium) wash setting can be used at the temperature stated.

**WOOL WASH**  
The number indicates the temperature. Two extra lines indicates a much reduced (minimum) wash setting can be used at the temperature stated.

**HAND WASH ONLY**
